Training direction

**19.03.01 BIOTECHNOLOGY
(Biotechnology and bioengineering)**

A graphic of a smartphone screen with a blue background. On the screen, there is a test tube and a flask containing green plants. The text 'FOR APPLICANTS Bachelor's degree programme' is at the top, 'Biotechnology' is in the middle, and 'Profile: Biotechnology and bioengineering' is at the bottom.

FOR APPLICANTS Bachelor's degree programme

Biotechnology

Profile:

Biotechnology and
bioengineering

CAREER OPPORTUNITIES FOR GRADUATES

- Head of biotechnological production;
- Head of a laboratory at a biotechnology enterprise;
- Biotechnology Engineer;
- Biotechnology Product Quality Engineer.

AREAS OF PROFESSIONAL ACTIVITY FOR GRADUATES

- Cultivation of biological objects: microorganisms-producers, cell cultures of animals and plants;
- Development and monitoring of technological processes for biotechnological products manufacturing: enzyme and microbial preparations, probiotics, prebiotics, food supplements, pharmaceutical substances, biofertilisers, biodegradable polymers;
- Monitoring the quality and safety of raw materials, intermediate and finished products, monitoring of biotechnological operations;
- Improving the efficiency of technological processes for manufacturing biotechnological products for food, pharmaceutical industries and agro-industrial complex.

EMPLOYMENT

- INFAMED K LLC;
- OTCPharm JSC;
- BIOCAD biotechnology company;
- Pharmasintez Group of Companies;
- Geropharm Pharmaceutical Company;
- Althaea Pharma;
- Natural Health Corporation and other biotechnological and pharmaceutical companies of the country.
