

III International “Baltic Marine Forum”, 24-30 May 2015.

List of conferences indicating sections / fields.

The registration form is available in on-line mode:
http://www.klgtu.ru/science/konferentsii/v_kgtu/index.php

In order to proceed the registration on this link
it is necessary to choose conference you are interested in from a submitted list.
The content of each conference registration form there is a list of sections.

--- The International Scientific Conference: "Marine Technology and Engineering. Safety of the maritime industry "

Sections

1. Navigation and fishing safety.
2. Shipbuilding and ship repair.
3. Electrical equipment of ships.
4. Ship and stationary power plants.
5. Commercial fishing.
6. Applied radiophysics, radio engineering and information security.

Scientific seminar

"System Research in fisheries management."

--- III International Scientific Conference "Water Bioresources, aquaculture and water reservoirs ecology"

Sections

1. Biological resources of the water reservoirs.
2. Aquaculture.
3. Ichthyopathology and Hydrobiology.
4. Ecology and nature.

--- The International Scientific Conference: " Educational research bases of engineers training process. Engineering pedagogic in the world".

Sections

1. Modern issues of higher education.
2. Innovation processes in preparing scientific and pedagogical staff in the industry engineering university.
3. Information – intellectual technologies as pedagogical means of engineers training system.

Round table

"Modern higher technical education upgrading problems "

--- III International Scientific Conference "Actual problems and prospects of Economics, Management and Finance"

Directions / Sections

1. Development of the regional economy under the influence of globalization.
2. Business economics of fishery industry and coastal areas.
3. Finance and credit relations, accounting, analysis and audit.
4. Marketing aspects of the economic sectors of the seaside region.
5. Development of human resources and personnel management.

6. Problems of economic security in today's economic conditions.
7. Management in social and economic systems.
8. Prospects for the development of the enterprises economy and organizations of Kaliningrad region.
9. Prospects for the development of trade organizations and networks.
- 10 Theoretical economics and institutional economics.

**--- The International Scientific Conference:
"Innovations in healthy food technology"**

Directions / Sections

1. Technique and technology of healthy food.
2. Regulatory issues to regulate the quality of healthy food products.
3. Formation of the market and the export potential of healthy foods.
4. Socio - economic problems of a healthy diet.

**--- The International Scientific Conference: "Advanced technologies, machines and mechanisms
in the engineering and construction"**

Sections

1. Machine components, tribology.
2. Engineering: Technology, Machinery, Automation and renovation.
3. Automation of technological processes and production, vehicle control systems.
4. Food Engineering.
5. Construction and engineering services.

**--- XIII International Scientific Conference: "Innovations in science, education and
entrepreneurship -2015"**

Sections

1. Nano and laser technology. Condensed Matter Physics. Physical Chemistry of Surfaces and protection materials.
2. Information technology in management, design and education.
3. Biotechnology food and biologically active substances.
4. Food of animal and vegetable origin.
5. Theoretical and applied aspects of innovative agrofitobiotekhnology.
6. Ecology, management and productivity of terrestrial ecosystems.
7. Actual Problems of Animal Science and Veterinary Medicine.
8. Flow mechanics and water resources.
9. The socio - political, legal, philosophical, and cultural problems of society. The philosophy of innovation.
10. Russian language and foreign languages. Linguistics. Pedagogy and methods of teaching Russian and foreign languages.
11. Problems of students physical education and sports training.
12. Innovation in ensuring safety ensuring.
13. Actual problems and prospects of Economics, Management and Finance.

--- The International Conference "Advanced technologies in transport"

1. Innovations in road transport
2. Logistics and safety in road transport "

--- Conference "Innovative enterprise - 2015"

Sections:

1. Round table discussion: "RegInnovatsiya- regional startup-ecosystems";
2. Innovations: from idea to product;
3. Round table discussion: "E-Learning: from school to academy of entrepreneurship";
4. Technical systems for decision support in management and enterprise;
5. Master-class : "Mediation in enterprise and management".
